

"Educating and empowering Canadian youth to create powerful, positive change in themselves, their communities and society"

May 22, 2019

Ms. Audrey McLellan
Juniper School
306 Juniper Dr
Thompson, MB R8N 0S9

Dear Ms. McLellan;

On behalf of the board and staff of SEEDS Connections, it is a great honour to congratulate the students and staff at Juniper School upon reaching Earth 3 status in the GREEN Schools Canada Program. You are the first participating school in Canada to achieve this status, having completed 3,000 environmental actions.

We know that this award could not have been achieved without the efforts of hundreds of students over the years. Juniper has been involved with GREEN Schools Canada Since 2015 and have been very committed to completing many incredible environmental projects and activities. These wonderful efforts have been ably managed under your dedicated leadership.

We recognize that GREEN School projects are but a few of the many positive actions that the school has taken in the community. Not only have Juniper students become more environmentally active, but they have also encouraged and included the larger community around the school.

The exemplary efforts of the staff and students have demonstrated environmental stewardship at a very high level. Congratulations on this achievement!

Yours truly,

A handwritten signature in black ink, appearing to read "Alix MacDonald", with a checkmark at the end.
